Subject: List of Sites in CERCLIS for Upper Animas

Dianna – Please respond to all as I will be out of the office next week (May 26-30) and may not be able to respond to email quickly. For the Upper Animas, the remedial program has an IA with USACE and their contractor, CB&I to gather and organize data that has been collected in the Upper Animas watershed as a “prelude” to the scoping of an RI.

Towards that effort, CB&I and the Superfund Records Center need to know all “sites” in CERCLIS that may be applicable to this task to search for data and the supporting documentation (lab reports, QAPPs, Sampling Results Reports, etc.). Can you search CERCLIS for all “sites” in both San Juan County and La Plata County, Colorado? The reason for La Plata County is that we have started sampling downstream of Silverton along the Animas River as far as Durango which is in La Plata County.

If you have any questions on this request and I’m not available, Richard Sisk may be able to assist you. I will be in the office for awhile tomorrow AM (Friday, May 22nd). Thank you.

Paula Schmittdiel
